

Ochno Socket

The elegantly designed USB-C table socket enables hiding the technology under the table and minimize cables. The four different surface finish in scratch free hard anodized aluminum offers optimal design combinations when selecting material for the tables.

Ochno Socket support charging up to 5A/100 USB 3.1 communication and video (alt-mode DisplayPort) together with Ochno Power Conference. Possible to use with third party USB-C chargers as well. Not guaranteed to work with third party docking stations.

Available with 1 m connecting cable for docking and 2 to 3 m for only charging.

Installed easily through a 18 mm hole.

Part numbers

Part number	EAN	Function	Color	Length
O-DO-100-2	7350113050977	Full docking	Aluminum	1 meter
O-DO-100-K-2	7350113051080	Full docking	Copper	1 meter
O-DO-100-S-2	7350113050991	Full docking	Black anodized	1 meter
O-DO-100-M-2	7350113051028	Full docking	Brass anodized	1 meter
O-DO-200-2	7350113050984	Only charging	Aluminum	2 meter
O-DO-200-K-2	7350113051097	Only charging	Copper	2 meter
O-DO-200-S-2	7350113051004	Only charging	Black anodized	2 meter
O-DO-200-M-2	7350113051035	Only charging	Brass anodized	2 meter
O-DO-300-2	7350113051110	Only charging	Aluminum	3 meter
O-DO-300-K-2	7350113051103	Only charging	Copper	3 meter
O-DO-300-S-2	7350113051011	Only charging	Black anodized	3 meter
O-DO-300-M-2	7350113051042	Only charging	Brass anodized	3 meter

Specifications

General

Content in box: Socket, installation instruction

Warranty: 1 year

Box dimension: 145 x 130 x 33 mm

Weight: 90g

Certification: CE, RoHS, FCC

Installation

Drill hole: 18 mm

Max thickness of table top: 33 mm

Functional description

Full Docking: 5A/100W charging, USB 3.1 communication, Alt-mode DisplayPort 1.2-1.4 video when used together with Ochno main units and cables. No guaranteed functionality when used with third party docking stations. Docking station with DisplayLink is supported. Docking via Thunderbolt is not supported. Only charging is supported for third party products.

Only charging: Supports 5A/100W charging if the used USB-C cable support the same. Together with Ochno main units 5A/100W is guaranteed even with the 3 m option. Using third party charger with 3 m cable there is the risk of too low voltage so that the connected laptop will not accept charging in 5A.
